- AUCTIONEER, Cody Lowderman, 309.833.5543
- Each embryo package consists of Grade One and/or Grade Two embryos. All embryos selling are IVF direct thaw. We will guarantee Grade Two embryos just like Grade Ones and feel that the eggs we are presenting are of the best quality. We will guarantee the establishment of at least one 60-day pregnancy per three embryos transferred, if the following conditions are met:
  - The transfers must take place within one year of sale date
  - Transfers are performed by a licensed embryologist
  - We are notified within a reasonable period of the failure to produce a pregnancy. Buyers of embryo packages that fail to establish at least one pregnancy will be given an additional embryo from the seller from the same mating if available, or if the buyer chooses one of similar value.
- All embryos selling as Sexed Female IVF unless otherwise noted. Embryos are not guaranteed to result in a female pregnancy, however our extensive experience with this would indicate that more than 90% of resulting pregnancies will be female.
- All lots will sell X the bid price. Shipping is the responsibility of the buyer.

## Watch the Sale on CCI.live!

*The best, the fastest and most  
comprehensive marketing & bidding tool!*

### *How to Bid Online...*

- As a buyer, you DO NOT need to login to watch the sale but you must have a validated account to bid.

To BID ONLINE go to [www.CCI.live](http://www.CCI.live) in your Chrome, Firefox, Safari or other modern browser:

- 1) Click on the sale schedule page.
- 2) Click on the sale of interest.
- 3) Click on Bid Online- Register and then Get Buyer Number

- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then "Get Buyer Number." Some auctions require valid credit card number on file to obtain a buyer number to bid.

- CCI.live will operate with ease on a modern **cellular device, laptop, desktop or tablet.**
  - A **current browser** is important and will always make your experience better.

- **For successful bidding you must have good Internet service!** It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.

- Support line open during all sales. TEXT 405-400-9505 - Please alert the ranch for your hauling preferences.

# PVF LUCY 4189

**STAG GOOD TIMES 201 ET (NON-SEXED)**

Featuring full and maternal sib embryos to the ABS sire PVF DLX King Pin 0058. King Pin led off our 2021 Spring Production Sale himself and made a mark during our 2023 Spring Production Sale with his offspring averaging more than \$50,000. 4189 descends from the Lucy cow family and is a maternal sister to the dam of Braxton Cole's many time Texas Major Champion. A daughter of 4189, PVF Lucy 8225, was a many time division champion at Angus majors for Katelyn Eathington. In addition to King Pin, 4189 sons have been popular here at the farm, and will lead off this Spring's PVF Production Sale April 4th. The Lot A embryos represent full sibs to King Pin. These unsexed Lot B embryos are sure to be profitable if they are male or female.

**B** *Embryo Sire*  
**PVF MARVEL 9185**

**C** *Embryo Sire*  
**BLC/ MLA OMEGA 2258**

These genetics are from one of our most exciting young donors, PVF Proven Queen 8256, who produced Lots 1 through 6 in our Fall 2024 Production Sale that averaged \$64,000. 8256 produced the \$170,000 featured Lot 1 female of the Fall 24 Production Sale, as well as PVF Proven Queen 3034, the feature of the Fall 23 sale who went on to be Supreme at the California Youth Expo for Cambria Cook. She also produced the \$100,000-second-high selling female of our Fall 24 Sale. The Lot A mating represent the newest member of the Select Sires AI stud, PVF Capone 2104 whose initial calf reports indicate that he will be a feature of PVF genetics for years to come. The Lot B mating is from the proven sire of champions, PVF Marvel 9185. The Lot C mating sired by BLC/MLA Omega 2258 was the popular 2023 NWSS Embryos on Snow featured sire, and whose first daughters were popular sale features last fall including our \$40,000 PVF Proven Queen 4412 and the \$40,000 PVF Proven Queen 4052. PVF Proven Queen 8256 was shown successfully by Cameron Choate, including Reserve Grand Champion at the North American International Livestock Exposition and was a division winner at the National Junior Angus Show. This female is a line bred Insight from the Proven Queen cow family and offers unmatched stoutness and power coupled with show ring style that racked up numerous banners in her career. 8256 as well as her four Proven Queen dams across the bottom of her pedigree were all National Junior Angus Show Division Winners. These embryos could be the sixth generation in this long line of success.

DAM Dameron PVF Proven Queen 010

**A** *Embryo Sire*  
**PVF MARVEL 9185 (NON-SEXED)**

**B** *Embryo Sire*  
**PVF INSIGHT 0129 (SEXED MALE)**

Concluding the sale with a unique opportunity, PVF Proven Queen 3017 is a moderately built, powerfully constructed daughter of the famous Proven Queen 010, who is most famous for producing two consecutive National Junior Angus Show Grand Champion Steers, including PVF Insight 6105, who was also crowned Third Overall at the Illinois Beef Expo and Grand Champion Land of Lincoln and Fourth Overall at the Illinois State Fair. The Lot A embryos are unsexed by one of the most powerful descendants of Insight, PVF Marvel 9185, while the Lot B embryos are sexed male full sibs to these two famous steer show champions.
