Or watch Live on CCI.Live

Good Cattle = Good People = Good Business

This summer we've been reminded more than once that the banners' won, or the sale's topped really don't mean a thing without the people that make it possible. Our industry has had its share of loss in the last year; from people we've known very well to those that we've admired from afar. One message has stayed consistent – our relationships with people are what makes this industry one that we've built our business on.

The number of good people that we have encountered in this industry warms our hearts and means more to us than the banners achieved. These good people have made our business good business. Something we are happy to hang our hat on. And that "good people" philosophy isn't just for our customers, but to our employees, contractors, and vendors. Work isn't work when you do it with good people.

This set of cattle offered has truly been a labor of love with some of these "good people". From our embryo herd partners, to our employees caring for them day in and day out, to those of you who have shown interest, we feel that this offering of cattle represents the best of our genetics from both tried and true donors, as well as some up and coming young cows we are proud to show off.

Please do not hesitate to contact us with any questions and thank you for your interest in PVF.

Sincerely,

- Alan & Theresa
- Brandon & Cathy
- Kurt Meyer, Kyle Chrislaw & Zach Wamsley

	PVF BLACKBIRD 3127				

Leading off this Fall's Sale with an elite individual who offers the freshest genetics at Prairie View Farms. Sired by the Select Sires feature, PVF Capone 2104, whose first progeny have created as much positive feedback as any sire ever produced at PVF. The dam is an impressive young Good Times daughter who is a maternal sister to PVF The Natural 7042. This heifer hails from the same genetics that produced Blacklist and Grand Champion females at nearly every National Angus Show. As just a three-year-old, 2201 is rapidly cementing her place as the new lead off donor in our program. Her first three progeny averaged more than \$40,000 in our Spring Production Sale. Retaining Half Embryo Interest.

PVF Capone 2104, this Select Sires feature is the sire of Lot 1.

PVF BLACKBIRD 3127

Stacking some of the most elite females ever to reside at PVF in one potent pedigree resulted in our Lot 2 offering. This February daughter of Marvel traces to the legendary 645 on the bottom and the 0084 Missie on the top. The Blackbird cow family stamps as much stoutness and power as anything else on the farm and Lot 2 leads the way in that regard. She combines tremendous muscle shape, a huge foot, and power from end to end without sacrificing her elite look. These first two lots exemplify why we are so excited about the future of 2201 in our program. Retaining Half Embryo Interest.

PVF Marvel 9185, this Select Sires feature is the sire of Lot 2.

PVF BLACKBIRD 2201

PVF PROVEN QUEEN 2106

Highlighting a full sister to the 2024 National Junior Angus Show Fourth Overall Female, this March offering is a full sister to the \$100,000 PVF Proven Queen 3025, who topped our Fall 2023 PVF Production Sale and went on to be a many time champion for Ashton Dillow. Among this donor dam's many other accomplishments, a daughter, PVF Proven Queen 3126 was named Supreme Champion Female at the 2025 Dixie National Junior Angus Show. Additionally, 5186 produced the newest exciting young Proven Queen in our donor lineup, PVF Proven Queen 1033, whose offspring are featured as Lots 6 - 7 in this catalog. Retaining Half Embryo Interest.

PVF PROVEN QUEEN 5250

The second of three full sisters that represent full sibs to PVF Proven Queen 3034, the Supreme Female at the 2024 California Youth Expo for Cambria Cook as well as PVF Proven Queen 4212, featured high selling Lot 1 of the Fall 2024 Production Sale. Lot 20 exemplifies all the best from this genetic combination. When we wrote the footnote for 8256 for the Spring 2019 sale, we said that “we have no doubt that this heifer will have an impact on our herd well into the future.” What an understatement. Retaining half embryo interest.

PVF Proven Queen 3034, this Supreme Champion at the California Youth Expo for Cambria Cook is a full sib to lots 19-21.

This female's show potential will only be exceeded by her producing ability.

PVF OPEN HEIFERS

ADDED *Value*

We take the business of breeding better Angus seriously. We understand that you have many options of where to invest in Angus genetics, so we attempt to go above and beyond to differentiate ourselves.

DNA TESTING ... We began DNA testing every female born at PVF ten years ago. Animals in this sale have been DNA verified for parentage and will display genetically enhanced EPD's at sale time. We believe the more you know about your purchase the more predictable the outcome will be not only as a show project but as a breeding piece. This starts with making sure that the animal you buy is exactly what we think it is.

HERD HEALTH ... In addition to our normal herd health vaccinations, all sale heifers were BVD tested, with results appearing with their DNA results on the American Angus Association website. We realize many shows require this test so we can provide that information for you if necessary. All calves have also been given the official calfhood brucellosis vaccine.

DISPOSITION ... We understand that most of these calves will see the showing and in many cases with younger exhibitors. These calves have not only been broke to tie but have also been led extensively and had show stick work. This does not necessarily mean they are show broke and they will still need work at their new homes, but we have done our best to eliminate any potential problems. If you have specific questions or concerns, please contact us.

IDENTIFICATION ... All animals have tattoos in both ears and have visual as well as EID tags. EID information has been submitted to the American Angus Association and is on file as the primary identification with tattoo as secondary. Tattoos fade and EIDS get lost so please double check before showing and let us know if there are any issues we can help with.

REGISTRATION ... All animals are registered with the American Angus Association. Papers are stored electronically and ready for immediate transfer upon payment.

PVF BLACKBIRD 3127

A unique opportunity for anyone looking for an older heifer to show before her career as a cow. This June heifer is broke to lead and ready for a show ring this winter. A Good Times daughter of PVF Blackbird 8001, this heifer is a full sister to a division winner at the North American International Livestock Exposition and the National Western Stock Show for Ashton Dillow.

Bred September 1, 2025 to Connealy Guthrie.

Another powerful daughter of the 8001 donor, this female is line bred to the legendary Insight, and her stoutness throughout shows through. With the look and mass that this female possesses, we expect her to produce for years to come.

Bred to calve March 10, 2026 to Connealy Guthrie.

PVF BRED HEIFERS

49

PVF Missie 3184, this Third Overall Heifer at the Illinois Junior Angus Field Day for Chloe Boitnott is a full sib to Lot 49.

50

A/F Anderson's Missie 914, dam of Lots 49 - 50.

PVF MISSIE 0084

From the Missie cow family, this Marvel daughter is a full sister to Chloe Boitnott's many time champion, PVF Missie 3184. 914 was added to our program to continue the legacy of the Missie cow family and her progeny and embryos continue to be in high demand.

Bred to calve January 31, 2026 to GCC Captivate 4083.

Combining Casino with the Missie cow family has been a proven mating at PVF including the famous donor PVF Missie 8246. While Casino is a household name in the Angus breed, people who know PVF understand 914 to be one of our most prolific donors. A daughter of the legendary 0084, she is a sib to such farm greats as PVF Missie 4149.

Bred to calve February 20, 2026 to Connealy Guthrie.

We've had numerous comments over the years about how impressive Surveillance daughters are in production. Combined with a young Good Times daughter, we expect this female to be as impressive as any in the offering as a cow. Her dam is a full sister to Lot 12 in this catalog, who will be a sure-fire favorite sale night.

Bred to calve January 31, 2026 to sexed heifer PVF Capone 2104.

A powerful prospect whose donor dam was featured in last fall's production sale. A daughter of the legendary PVF Blackbird 7001, who is a maternal sib to such herd staples as PVF Blackbird 3127 and PVF Blackbird 3070, who is better known as Blacklist's dam.

Bred to calve March 27, 2026 to Connealy Guthrie.

PVF EMBRYOS

Each embryo package consists of Three Grade One and/or Grade Two embryos that have been frozen by Trans Ova Genetics. All embryos selling are IVF direct thaw. We will guarantee Grade Two embryos just like Grade Ones and feel that the eggs we are representing are of the best quality.

We will guarantee the establishment of at least one 60-day pregnancy per three embryos transferred, if the following conditions are met:

A. The transfers must take place within one year of the sale date.

B. Transfers are performed by a licensed embryologist.

C. We are notified within a reasonable period of time of the failure to produce a pregnancy.

Buyers of embryo packages that fail to establish at least one pregnancy will be given an additional embryo from the seller from the same mating if available, or if the buyer chooses another of similar value.

Embryos selling are Sexed Female IVF embryos but are not guaranteed to result in a female pregnancy, our extensive experience with sorted semen would indicate that in excess of 95% of resulting pregnancies will be female.
